

UNITED STATES GOVERNMENT

# memorandum

DATE: 10 JUL 90

REPLY TO  
ATTN OF: DT-S

SUBJECT: SUBJECT: SUN STREAK Report - 9047 (U)

TO: ODCSINT, DAMI-PO

TO:

1. (S/STD/NF) Two remote viewing sessions were conducted on 9 July 1990 to describe and determine the current location of the target vessel identified as the [REDACTED] SG1B. Efforts were conducted to determine the destination of illegal contraband in the form of drugs; and, to identify and describe a second vessel, the [REDACTED] SG1B projected to on-load contraband from the [REDACTED] SG1B.

2. (S/STD/NF) According to Remote Viewer 025, the vessel identified as the [REDACTED] SG1B, is currently located south of the Caicos Islands. The cocaine it carried appeared packaged "in bottles, in round packages, located in the back (of the ship) and (stored) below." The drugs will be off-loaded to the vessel identified as " [REDACTED] SG1B at geographical coordinates [REDACTED] SG1B for final distribution along the eastern seaboard of Florida. The [REDACTED] SG1B was described as a "big vessel having a wide superstructure."

3. (S/STD/NF) Viewer 018 perceived the [REDACTED] SG1B as being currently located at geographical coordinates 14° 00'N/65°30'W. The [REDACTED] SG1B appeared scrubbed clean after having off-loaded its cargo of illegal drugs to a large, bulky, slow-moving vessel, on 6 July 1990, at geographical coordinates 16°15'N/51°15'W. The drugs were packaged in "some kind of slick-surfaced paper, the same size as one-pound packages of coffee grounds."
